Costa Rica Phrase book

The waterproof map above has a great little phase translation section specifically for quick reference when asking directions, but you'll want the Lonely Planet Phrase book for the rest. The only English/Spanish book written specifically for Costa Rica covers the particularly flavorful Tico Language. Perfect for absolute beginners.

Convertible Cargo Pants

You'll want the full length for protection in the jungle, but the legs zip off to double as shorts. Save space while packing but still always have the right clothes for the activity.

Gear Dry Bags

Never heard of them? You'll wish you had after the first tropical downpour. Developed for rafting they'll keep your gear dry even if fully submerged.

The Right Shoes

The right footwear can make all the difference when you're exploring nature. The Salomon TechAmphibian was made for the rainforest with rugged selfclearing tread, perfect support and open construction to shed water.

Costa Rica's National Parks

The complete visitor's guide to the National Parks, Reserves, and Preserves. How to get there, when to go, what to see and of course hiking and walking trail information and maps.
